

MATERIAL SAFETY DATA SHEET

ABX MINILYSE 1L - A91A00245 - 24/09/03

1. Product and company identification

1.1 Identification of the product:

Product name: ABX MINILYSE 1L
Product code: Ref. ABX ==> 0701010

1.2 Company identification:

ABX Diagnostics - rue du Caducée - Parc Euromédecine –
34184 MONTPELLIER CEDEX 4 – FRANCE
TEL (33) 4 67 14 15 16 FAX (33) 4 67 14 15 17

1.3 Emergency phone number: Contact the nearest first-aid station

2. Composition/information on ingredients

Chemical nature: Lysing Agent.
Hazardous ingredients: Potassium Chloride < 20%
(name, concentration) Sodium Azide < 0.1 %
EDTA < 25%
Quaternary Ammonium Salt < 20%
Propanol 2 < 20%
Potassium Cyanide < 0.1%

Dangerous preparation according to 67/548/EEC - 99/45/EEC (Yes/No) : No, concentration lower than EEC directives threshold

3. Hazards identification

Most important hazards: Harmful if inhaled, swallowed or in contact with the skin.
Specific risks: Extremely toxic fumes are given off when in contact with an acid.

4. First-aid measures

Inhalation: Breathe in fresh air deeply.
Skin contact: Rinse abundantly with soapy water.
Eye contact: Rinse abundantly with water.
Ingestion: Artificial respiration with added oxygen as in the case of intoxication by cyanidric acid.

5. Fire-fighting measures

Extinguishing media: This product is non-flammable
Specific risks:
Special protective equipment:
Additional recommendations:

6. Accidental release measures

Personal precautions: Wear laboratory gloves and protective goggles.
Environmental precautions: Neutralise with sodium hypochlorite solution.
Methods for cleaning / absorption: After neutralisation, soak up but do not throw down the sink incineration).

7. Handling and storage

7.1 Handling:

Technical measures: Avoid contact with the eyes, skin and respiratory tract.
Wear laboratory gloves and protective goggles.
Precautions: Always handle in a well ventilated area.
Handling recommendations: As applied to all toxic liquids.

7.2 Storage:

Technical measures:
Storage conditions: Store in an airtight recipient. Store at 18 to 25°C .
Incompatible materials: Avoid all contact with acids or aqueous acid environments as extremely toxic cyanide vapour may be formed.
Packaging materials: Wrap in polyethylene or other plastic.

Australian Supplier

In Vitro Technologies Pty. Ltd.
Street/P.O.Box:
Country code/Postal code/Town/City:
Telephone / Telefax:

7-9 Summit Road
Noble Park, Melbourne, VIC 3174

Poisons Information Centre: Tel. 131126

MATERIAL SAFETY DATA SHEET

ABX MINILYSE 1L - A91A00245 - 24/09/03

8. Exposure controls/personal protection

Specific control parameters:

Technical measures:

Eye wash, safety shower. Laboratory gloves, protective goggles.

Respiratory protection:

Hand protection:

Eye protection:

Skin protection:

Hygiene measures:

9. Physical and chemical properties

Physical state:

Liquid.

Auto-flammability:

Colour:

Colorless.

Explosive properties:

Odour:

Smells of cyanide.

Oxidizing properties:

pH :

10,2 ± 0,4.

Vapour pressure:

Boiling point:

Relative density:

Melting point:

Solubility:

Aqueous solution miscible with water.

Flashing point:

Partition coefficient:

Flammability (solid, gas) :

Non-flammable.

Other data:

10. Stability and reactivity Expiry date.

Conditions to avoid:

Avoid all contact with the next reagents : BASOLYSE, BASOLYSE II.
Avoid all contact with acids or aqueous acid environments as highly toxic cyanide acid vapours may be formed.

Materials to avoid:

Hazardous decomposition products:

Cyanide acid vapours formed upon contact with acids.

Other data:

11. Toxicological information

Acute toxicity:

The danger of serious intoxication exists in case of absorption or inhalation. **LD 50** Potassium Cyanide : **10 mg/kg** (oral, rat).
LD 50 Sodium Azide : **27 mg /kg** (oral, rat).

Chronic toxicity:

(sensitization, carcinogenicity, mutagenicity, teratogenicity, etc)

Inhalation:

Skin contact:

Eye contact:

Ingestion:

Other data:

12. Ecological information

Mobility:

The product is dangerous in water, and toxic to fish and plancton. KCN in its pure state is extremely toxic to fish.
LC 50 leuciscus idus "forma orfus" : 0.07 - 1 mg/l.
NaN₃ in its pure state is extremely toxic to fish :
= = = > LCo Blue gill : 1.5 ppm/24 h.

Degradability:

Bioaccumulative potential:

Ecotoxicity:

Other hazardous effects:

ABX MINILYSE 1L - A91A00245 - 24/09/03

13. Disposal considerations

Surplus or waste (residues):

Neutralise the product (see procedure as described) before discarding.

Contaminated packaging:

Incineration.

14. Transport information (International regulations)

By land:

Not classified according to directive 99/45/EEC

By river:

Not classified according to directive 99/45/EEC

By air:

Not classified according to directive 99/45/EEC

By sea:

Not classified according to directive 99/45/EEC

General information:

15. Regulatory information Not classified according to directive 99/45/EEC

Labelling according to EEC directives
